The **purpose** of this Supervision Agreement is to:

Values:

The **working relationship** between the parties to this Agreement is expected to reflect the peer support values as expressed in the MSA Peer Support Guidelines: **Mutuality; Recovery & Hope; Experiential Knowledge; Self-determination; Participation and Equality.**

And the relationship should also **model an effective Intentional Peer Support relationship** by embracing a way of working together that is based on a genuine (open and honest) **Connection** between the parties; welcomes and respects different **Worldviews**; understands that **Mutuality** means an absence of power or privilege in the relationship; and expects that **Moving Towards** recovery is a journey together.

Session Notes should be securely stored and remain accessible to the parties involved.

Reporting

Reports will be provided in writing (email or otherwise) by the supervisor to the organisation (Manager) on a three-monthly basis.

These reports are required to evidence that supervision is occurring as required by MST policy, and to confirm that the risks that supervision is designed to mitigate, both for peer-workers and their organisation, are under active management.

Written reports will include:

- The dates supervision attended and the duration of each session;
- A statement that the supervisee is/is not fulfilling the terms of the supervision contact;
- Any occurrence of unsafe or unethical practice that remains unresolved; and
